

A meerkat is the central focus of the image, standing upright in a natural, dry, and grassy environment. The meerkat is light-colored with darker patches around its eyes and ears. The background is a soft-focus field of dry grass and small plants.

# Behavioral Ecology

## Spring 2018

*Ever wondered,*

*Why do bees dance? Why do birds sing?*

*Why do meerkats take risks to alert others to danger?*

*Come find answers to these questions and more in this new course. Topics explored include sociality, mating systems, migration, communication and cognition.*

**Tuesdays & Thursdays**

**9:40 – 10:55**
